**JASON®
INDUSTRIAL**

Jason Industrial® manufactures and delivers a comprehensive inventory of rubber and polyurethane synchronous belts, rubber v-belts, industrial hose and couplings, plus hardware to the industrial community worldwide.

When extraordinary needs require specialized components, we will work with you from prototype to production, creating custom solutions that suit your unique application.

As a Jason Industrial customer, you can feel confident in the quality and integrity of our products, the speed and efficiency at which they are delivered, and the expertise and customer focus that our local representatives are committed to providing.

Jason's corporate headquarters are based in Fairfield, New Jersey. Our distribution center is located just outside of Chicago, Illinois, with additional corporate offices in Canada, Mexico, Brazil and Colombia, as well as manufacturing, warehousing and distribution centers in cities across the globe.

Welcome to Jason Industrial... the first name in mechanical rubber and urethane products that power industry forward.

HOW TO USE JASON INDUSTRIAL'S CROSS REFERENCE GUIDE

IN THIS CATALOG:

1. Simply look up the OEM manufacturer's part number on pages 22-34 for Lawn & Garden Equipment. For AG Equipment & Pumps, see pages 35-54. Listed next to it is a cross-reference to MXV™ or standard Multi-Plus® belts. Special OEM belts are listed on pages 20-21.
2. What if the belt I am trying to replace has no part number on it (or I can't read it)? Using the Belt Construction Reference on page 6, determine the cross-section, then measure the outside length of the belt.

For example, a belt that has a 1/2" top width and outside measurement of 35" would be cross-referenced into either an A33(4L350) or a MXV4-350 (Super Duty).

3. Which do I use - MXV™ or Standard Multi-Plus® belts?

Most manufacturer's part numbers can be cross-referenced into either a standard Multi-Plus® belt or a Super Duty MXV™ belt. If given a choice, we recommend the MXV™ belt, for lawn and garden equipment. The aramid cord in this belt provides longer life. An MXV™ belt may be substituted for a standard Multi-Plus® belt. However, a Multi-Plus® belt can not be substituted for an MXV™ belt.

SOME GUIDELINES IN DECIDING WHICH TYPE OF BELT TO USE:

HORSEPOWER - Whenever the motor horsepower is greater than 5 or the service life of a Multi-Plus® belt is less than desired, move up to the premium MXV™ Super Duty belt.

CLUTCHING - If the belt is used in a clutching application, use the MXV™ Super Duty belt. The cover fabric is specially designed to allow it to clutch. If clutching is not a requirement, the standard Multi-Plus® belt may be used.

BACKSIDE IDLER - The MXV™ belt is designed for longer life when used on a drive where a backside idler is used.

LAWN MOWERS - Due to the strength of it's aramid cords, the MXV™ belt is recommended for lawn mower applications.

All references to original equipment manufacturers, their trade names and their part numbers, listed in this catalog are used for identification purposes only. It is not our intention to imply that the merchandise is original equipment.

Any reference to Original Equipment Manufacturers, their trade names or stock numbers in this catalog is for identification purpose only.

The replacement recommendations contained in this catalog are not, in all cases, intended to be identical to the belt specifications of the original equipment manufacturer. Reasonable performance and availability are the major considerations in arriving at these selections. Where clutching drives are involved, extreme caution must be exercised to assure correct belt recommendations are used.

WARNING

Aramid Cord — Since MXV™ belts feature high strength aramid tensile cords, shocks can be transmitted that exceed the strength of some cast pulleys. Carefully check the condition of your equipment, keep all guards in place, and consult the manufacturer if replacing standard belts with high strength aramid cord belts on cast pulleys.

HOW TO USE JASON INDUSTRIAL'S ONLINE CROSS REFERENCING TOOL

ONLINE BELT GUIDE:

1. Search by accessing www.jasonindustrial.com
2. Go to Industries
3. Select Lawn & Garden
4. Select V-Belt Cross Reference Tool

Start New Search

BY PART NUMBER
BY KEYWORD
BY MANUFACTURE'S PRODUCT
NUMBER
BY MODEL NUMBER

DRIVE BELT NOMENCLATURE

V-Belt Type	Numbered By	Part Number	Outside Length
Lawn & Garden	Standard Length	MXV4-500	= 0.50"
Fractional HP	Effective Length	4L500	= 0.50"
Classical Multi-Plus	Standard Length Designation	A48	= 0.50"
Fractional HP	Effective Length	5L500	= 0.50"
Classical Multi-Plus	Standard Length Designation	B47	= 0.50"
Classical Cogged	Standard Length Designation	AX48	= 0.50"
Narrow Deep Wedge	Effective Length	5VX500	= 50"

Note: Length information values in the above table are approximate. Industry standards require that to properly measure a belt, it must be installed on a fixture with two pulleys of prescribed dimension and tensioned to a specific value. Accurate values cannot be measured by hand on a free length of belt.

ARAMID CORD FOR LAWN & GARDEN LIGHT DUTY FHP MXV™

Fractional HP

CLASSICAL HEAVY DUTY

Jason Multi-Plus® - UniMatch®

MOLDED COGGED

Cogged allows smaller pulleys.
Better heat dissipation.

WEDGE

Narrower, deeper profile with higher power capability than classical v-belt. Allows for smaller, more compact drives.

WEDGE COGGED

Same properties of Wedge. Cogged for greater flexibility and heat dissipation. Raw Edge Sidewalls (no fabric cover) prevent slippage.

WRAPPED V-BELT

1. Cover - Rubberized Fabric

- Flexible, non-cracking, smooth running for long life
- Oil, heat & abrasion resistant

2. Load Section - Polyester Cords

- Positioned to take tension in both FHP & Classical applications
- Chemically treated, then fused prevents separation

3. Load Carrying Section

- Special compound to resist stretch & fatigue

4. Compression Section

- Elastomer resists compression fatigue
- Dissipates internal heat build-up
- Provides firm lateral pressure against groove sidewall and distributes the load to cords

RAW EDGE V-BELT

1. Top Fabric

- Provides heat and oil resistance

2. Load Section - Polyester Cords

- Provides uniform distribution of load

3. Raw Edge Sidewalls

- Increases grip/Improved efficiency through reduced slippage

4. Compression Section

- Elastomer resists compression fatigue
- Dissipates internal heat build-up
- Provides firm lateral pressure against groove sidewall and distributes the load to cords

5. Precision Molded Cogs

- Provide flexibility and aid in heat dissipation

WARNING: These products can expose you to chemicals including carbon black which is known in the state of California to cause cancer, birth defects or other reproductive harm. For more information visit www.P65WARNINGS.ca.gov

THE PROFESSIONAL SELECTION

ARAMID CORD - (MXV) Super Duty

Professional Aramid Cord, premium wrapped belts are designed for engine powered applications and designed to handle the most demanding applications - from riding mowers to edgers and tillers. These belts have an extra long life, even when used in clutching and backside idler applications.

The Professional Aramid belts provide performance advantages over fractional horsepower belts:

- Aramid Cord provides a high tensile strength for severe shock load and stretch resistance. Aramid is pound for pound stronger than steel - it's the same material used in bullet proof vests!
- A lower cord position within the construction of the belt is a major performance advantage in backside idler applications.
- Our special clutching cover provides smooth engagement and prevents accidental engagement in clutching applications. This cover protects the belt from heat associated with clutching. It also allows smooth belt engagement and reduces the "grabbing" effect that can cause accidental belt engagement common with standard belts.

POLY CORD - (MULTI-PLUS®) Standard Duty

Professional Poly Cord belts are high quality standard duty replacement belts for use in less demanding applications, designed and constructed for electric motor powered applications. These belts are made from premium quality synthetic rubber compounds and feature high-strength polyester cords.

OEM Exact (XP) Replacement

The OEM Exact Replacement belts are of the highest quality, made to OEM specifications. These belts offer design, length and top width dimensions to meet or exceed OEM tolerances. While most of our Aramid and Poly Cord belts are interchangeable with the exact replacement belts we offer, if we make an OEM exact belt available, we recommend selecting that belt. We carry exact replacements because of their non-standard size or because we have determined that they offer superior performance.

MXV™ LAWN & GARDEN PREMIUM BELTS

MXV™ Super Duty Lawn & Garden Belts - MXV3, MXV4, MXV5 (Tough Aramid Reinforcement)

These belts are ideal for lawn and garden applications. The special aramid tensile member guarantees excellent shock resistance while the bare back construction special cover assures smooth belt release and engagement in clutching applications. Special oil and heat resistant synthetic rubber.

Features & Benefits

- **Aramid Blend Tensile Member** - Low stretch tensile; resistant to shock load
- **Special Fiber Loaded Undercord** - Greater tensile member support
- **Blue Bare Back Cover** - Smooth, quiet operation on clutching applications
- **Thin Profile** - Flexible on small pulleys for long life

Construction

Compound - Oil & heat resistant synthetic rubber

Cord - Aramid Blend Tensile Member

Cover - Bare Back (no rubber impregnation)

Applications - Lawn & Garden, Agriculture, Pumps, Blowers, Fans, Woodworking Equipment, Hand Tools, Sprayers, Compressors

Engineering Standards - Conforms to ARPM standard IP-23

Recommended Pulleys - Use pulleys made to ARPM standards

Note - MXV belts have the same dimensions and tolerances as standard FHP belts.

V-BELTS

Fractional Horsepower (FHP) V-Belts - 3L Section

Fractional Horsepower (FHP) V-Belts are ideal for HVAC equipment, appliances, outdoor power equipment, lawn & garden, and various industrial applications. Generally, 3L FHP belts are used individually on drives of 1 horsepower or less.

Features & Benefits

- **Oil & Heat Resistant** - Durability in tough environments
- **Flexibility** - Ideal for use with backside idlers
- **Static Dissipating** - Safe operation in potentially dangerous atmosphere

Construction

Compound - Natural Rubber/SBR

Cord - Polyester

Cover - Cotton/Polyester blend

Applications - HVAC Equipment, Lawn & Garden, Appliances, General Industry

Engineering Standards - Conforms to RMA standard IP 23

Recommended Pulleys - Use pulleys made to ARPM standards

Note - Effective length is approximately equal to outside length

PART NUMBER DESIGNATION

3L130

3 = Belt top width in increments of one-eighth inch = 3/8"

L = Light Duty (FHP)

130 = Outside length in tenths of an inch = 13"

3L SECTION 0.38" TOP WIDTH x 0.22" THICKNESS x 40° ANGLE

UniMatch® Classical Multi-Plus® - A, B, C, D, E

Jason/Megadyne's Multi-Plus® V-Belts are designed to perform in tandem in multiple V-Belt drives, maintaining drive efficiency and classical belt performance. Multi-Plus® V-Belts are always matched, easy to install and maintain. Jason Multi-Plus® V-Belts come in a complete range of sizes, are anti-static and offer oil and heat resistance meeting RMA requirements.

Dual Branding – A and B section belts up to 100" are Dual Branded clearly identifying both RMA classical and fractional

horsepower (FHP) sizes allowing consolidation of your classical and FHP inventory into one belt line – saving you money! No need to carry two separate product lines. The dual part number system is more than just labeling, too. FHP & Classical belts have the same top width dimension but classical profile is deeper, allowing more belt/pulley contact and reducing sheave wear.

Dual Branding Example: A40 (4L420), B78 (5L810)

Features & Benefits

- **UniMatch® Construction** - Consistent performance in multiple V-Belt drives - ensures all belts will measure within ARPM matching standards
- **Dual Branding** - A & B sections dual-branded with classical and FHP part numbers - reduces inventory by allowing you to discontinue 4L and 5L
- **Oil & Heat Resistant** - Durability in tough environments

Construction

Compound - Natural Rubber/SBR

Cord - Polyester

Cover - Cotton/Polyester blend

Applications - General Industry, HVAC Equipment, Lawn & Garden, Agriculture

Engineering Standards - Conforms to ARPM standard IP 20

Recommended Pulleys - Use pulleys made to ARPM standards standards

"A" SECTION 0.5" TOP WIDTH x 0.31" THICKNESS x 40° ANGLE

- **Note** - For A Section, add 2 inches for outside length - Example: A15 + 2 inches = 17" approximate outside length

PART NUMBER DESIGNATION

V-BELTS

DOUBLE-V (HEXAGONAL) CLASSICAL BELTS - AA, BB, CC Cross Sections

Specially designed for serpentine and reversing drives, Double V-Belts transmit power from both sides of the belt. Polyester cords and cotton/polyester cover provide maximum strength and length stability with minimum stretch. These belts conform to ARPM Engineering Standard IP-21. Double V-Belts are available in three standard ARPM sections - AA, BB and CC - and

in lengths up to 540 inches. They are specified by belt section letters and a Standard Length Designation that is equivalent to the length of single "V" profile belts - **Example: AA49**

CC Section - Dry can belts available on request. These are used in drying can applications in the textile industry.

Features & Benefits

- **Polyester Tensile Member** - Maximum strength, minimum stretch
- **Dual Cross-Section Construction** - Flexibility in design; delivers power from both sides of the belt
- **Center Cordline Construction** - Increased flexibility on reverse bend or serpentine drives; longer life than standard belts

Construction

Compound - Natural Rubber/SBR

Cord - Polyester

Cover - Cotton/Polyester blend

Applications - General Industry, Lawn & Garden, Agriculture, Textile, Material Sorting Equipment

Engineering Standards - Conforms to ARPM standard IP-21

Recommended Pulleys - Use pulleys made to ARPM IP-20 for the respective single V-Belt

Note - These belts do not use the same nomenclature as Agricultural belts. Refer to Jason/Megadyne Engineering for length conversions

DOUBLE-V CLASSICAL BELTS FOR POULTRY INDUSTRY

Note: "N" suffix on belt number denotes double-notch construction. Contact Jason for availability of additional sizes.

Used on equipment in the poultry industry for the de-feathering process, the table below lists popular sizes of Jason Double-V Classical Belts which have proven themselves in this harsh environment. Where a suffix of N is seen at the end of the belt number (Example: BB158N), belts are double-notched for extra flexibility.

Belt Number	Inside Length (in.)	Approx. Weight (lbs.)	Construction
AA128	128.9	1.30	Standard
AA148	148.9	1.50	Standard
BB155	156.3	2.00	Standard
BB155N	156.3	2.00	Double Notched
BB158	159.3	2.00	Standard
BB158N	159.3	2.00	Double Notched
BB172N	173.3	2.10	Double Notched
BB185	186.3	2.30	Standard

V-BELTS

UNIMATCH® COGGED RAW EDGE CLASSICAL V-BELTS - AX, BX, CX Oil & Heat Resistant/Static Dissipating

Megadyne V-Belts in raw edge, cogged construction are ideally suited to high-speed compact drives. These belts all have the UniMatch feature ensuring belts of matched length when used on drives requiring the use of multiple, or a set of belts.

Cogged Raw Edge V-Belts are designated by a letter indicating belt section, followed by "X" which signifies cogged, raw edge construction that has greater power capacity than standard wrapped construction.

WARNING: This product can expose you to chemicals including carbon black, which is known to the State of California to cause cancer or birth defects or other reproductive harm. For more information visit www.P65WARNINGS.ca.gov

PART NUMBER DESIGNATION

AX22

- A** = 0.5" Width x 0.31" Thickness
X = Raw edge sidewalls, cogged construction
22 = Inside length in inches

Features & Benefits

- **Raw Edge Sidewalls** - Eliminates slippage and increases efficiency versus wrapped V-Belts and saves energy
- **UniMatch Construction** - Consistent performance in multiple V-Belt drives and ensures all belts of the same size measure within ARPM matching limits
- **Oil & Heat Resistant** - Better than standard belts in oily environments (occasional splash) and higher ambient temperatures

Construction

Compound - Chloroprene

Cord - Polyester

Top Fabric - Cotton/Polyester blend

Applications - General Industry, HVAC Equipment, Lawn & Garden, Agriculture

Engineering Standards - Conforms to ARPM standard IP-20

Temperature Range - -22°F/+194° (-30°C/+90°C)

Recommended Pulleys - Use pulleys made to ARPM standards

V-BELTS

ACCU-LINK® DETACHABLE TAB LINK TYPE V-BELT The Ideal V-Belt Alternative!

Accu-Link is an alternative to conventional rubber belts in many applications. Made endless with a single twist, an open length of belt can be wrapped around pulleys in hard-to-fit applications yielding fast belt replacement. Additionally, Accu-Link's high strength polyester fabric link design offers high tensile strength and reduces vibration. Accu-Link's urethane impregnation offers terrific oil and wear resistance.

Features & Benefits

- **Durable Urethane Coating** - Increased life and durability
- **Rugged Polyester Fabric** - Strength and longer life; maximum horsepower
- **Assemble To Any Length** - Reduces inventory
- **Easy "No Tools" Assembly** - Assembles by hand
- **Chemical/High-Temp Resistance** - Dependable in harsh environments
- **Link Construction** - Rolls onto drive pulleys like chain - no cords to break.
- **Smooth Operation** - Reduced vibration over conventional V-Belts
- **Versatile** - Can be used in any industry, hundreds of applications
- **Horsepower Capacity** - Power ratings equal to conventional V-Belts
- **Interchangeability** - Uses existing standard pulleys

Construction

Rugged polyester fabric impregnated with premium urethane coating

Applications - For use in applications where it's difficult to install an endless belt, avoiding costly labor-intensive machine dis-assembly. Ideal for use on mobile service vehicles where carrying a large inventory of belts is not practical. Can be used either as singles or on multiple belt drives. Widely used in poultry, HVAC, agriculture and general industry.

Engineering Standards - None (No engineering standard exists for link-type belting)

Recommended Pulleys - Use pulleys made to ARPM standards

Temperature Range - -13°F/+176°F (-25°C/+80°C)

C	C-LINK-25	25	1.70	25 ft. in one carton

V-BELT TENSIONING INSTRUCTIONS

V-Belt tensioning adjustment can be made using a tension gauge or other type spring scale, using the following procedure. After seating the belts in the groove and adjusting center distance so as to take up slack in the belts, further increase the tension until only a slight bow on the slack side is apparent while the drive is operating under load. Stop the drive and, using the gauge, measure the force necessary to depress one of the center belts 1/64-inch for every inch of belt span (see sketch below). For example, a deflection for a 50-inch belt span is 50/64ths, or 25/32-inch. The amount of force required to deflect the belt should compare with the deflection forces noted in the chart below. Also notice for V-Belts the deflection forces vary from the initial “run-in” values, which are greater (reflecting higher run-in tensioning) to the “normal” values for after the run-in period.

COMMON V-BELT TROUBLESHOOTING

Exposure to Oil & Grease

Cause: Belt swelling, exterior softness and bottom envelope seam to open/split.

Remedy: Splash guards, don't over lubricate, clean belts/sheaves.

Weathering or “Crazing”

Cause: Belt drive elements, as well as aggravation by small sheaves.

Remedy: Check tension, provide drive protection and replace belt(s)

Worn Side Pattern

Cause: Worn or misaligned sheaves.

Remedy: Retension drive to stop slipping, realign sheaves (replace if needed) replace belt if incorrect size.

Oil Deterioration

Cause: Rubber softened by excessive oil exposure, causing deterioration.

Remedy: Splash guards to protect drive against oil.

Cut Bottom & Sidewall

Cause: Belt being pried over sheave during installation, as cut above indicates.

Remedy: Use proper length belts and tension properly when installing.

Severe Localized Wear

Cause: Spin burn caused by a frozen or locked drive sheave not able to turn freely.

Remedy: Determine that drive components turn freely and, if necessary, tighten belt.

Cover Fabric Rupture

Cause: Fabric cover ruptured during installation due to belt being pried over belt sheave.

Remedy: Proper installation of belts.

Base Cracking

Cause: Loose tensioning. Belt slippage causes heat build-up and gradual undercord hardening.

Remedy: New belt. Proper tensioning.

Rough Sheave Sidewalls

Cause: Constant slippage due to belt being misaligned on worn sheaves.

Remedy: Use correct belt size, Align or replace sheaves.

Broken Belt

Cause: Rough sheaves and dust build-up can both cause belt failure and severe envelope wear.

Remedy: Shield the drive

Distorted Belt

Cause: Distortion caused by broken cords or adhesion breakdown.

Remedy: Avoid prying on belts. Check sheaves for recommended diameters.

Ply Separation

Cause: Split along pitch line indicating belt ran on too small diameter of sheave.

Remedy: Install a (x) cogged type belt.

Snub Break

Cause: Cover wear indicates slippage and clean break reveals sudden snap due to non-proper drive tensioning

Remedy: Maintain proper drive tension

Abrasion

Cause: Sidewall wear a result of foreign material and rust in sheaves. Belt dropped to bottom of sheave groove.

Remedy: Dust guards to prevent abrasion.

Ruptured Belt

Cause: Ruptured cords in the plies, caused by high shock load or foreign object between belt and sheave groove.

Slip Burn

Cause: Belt slipping under starting or stalling load.

Remedy: Replace belt and tighten drives until slipping stops.

OEM REPLACEMENT BELTS

Jason produces OEM equivalent belts using OEM specifications. These belts feature special construction or sizes not accommodated in our universal MXV™ line-up.

OEM	Part No.	Also Replaces	Description
AYP	106729		38", 10 & 11 HP Front Engine
AYP	130969	108310	Lawn Tractor belt - fits most 12, 12 1/2 and 14 Horsepower (Hp) AYP, Bernard, Husqvarna, Craftsman Rally 42 inch cut front engine lawn tractors.
AYP	131264		Fits Husqvarna, Weedeater 10-13 HP 36 inch deck front engine machines, AYP 36 inch cut side discharge narrow chassis, the early 36 inch riding lawn tractor lawn mower.
AYP	138255	130801, 160855	42" and 50" Decks with 25HP Kohler engine.
AYP	140294		Lawn Tractor Belt fits models of 18 to 21HP AYP, Bernard, Husqvarna, Craftsman 42 inch, 44 inch; deck side discharge.
AYP	144200	104778, 105364, 105380, 121979	AYP Craftsman lawn tractor belt fits most models of AYP, Bernard, Husqvarna, Craftsman Lawn Tractors 42 inch cut. Fits models with side discharge AYP 42 inch cut decks with double idler pulley HUSQVARNA YTH 150.
AYP	144959		Lawn Tractor Belt fits most models of AYP, Bernard, Husqvarna Rally and Craftsman 42 inch & 46 inch deck intermediate belt.
AYP	174368		Husqvarna 48 inch Primary deck belt for use on Husqvarna lawn tractor/ride on mowers models: HAU18H48A, YTH1848XPA, YTH1848XPB, YTH1848XPC, YTH2049A. Jason MXV Series Belts are functional replacements to the printed OEM part numbers. Sizes may vary slightly from OEM belt, but are within RMA (Rubber Manufacturers Association) standards for the application.

WARNING: These products can expose you to chemicals including carbon black which is known in the state of California to cause cancer, birth defects or other reproductive harm. For more information visit www.P65WARNINGS.ca.gov

AG EQUIPMENT & PUMP BELTING PART NUMBERS

NOTE: FHP Belt may be upgraded to the MXV Belt, however the FHP Belt SHOULD NOT be substituted for the MXV Belt

V-Belt Display

Display has 49 hooks. Display height is 16-5/8", width 48", 26-1/4" front-to-back.

PART NUMBERS:

Rack: WFD-49

Side Panel: SP-49

Sign Holder: SH-49

V-Belt Wall Rack

36" long mounting rack with eight 8" hooks provided.

Includes two brackets for quick, easy, durable mounting.

PART NUMBER: WHD-7

Sheave Gauge

Can be used to determine both Sheave and Belt size. Check for sheave wear to determine when a replacement is necessary.

PART NUMBER: G001

110" Belt Measurer

Measures all size industrial belts up to 110" in ranges of 3/8", 1/2" and 5/8" accurately and efficiently.

PART NUMBER: 32-9108

Tension Tester Gauge

Assures proper belt tension and installation.

PART NUMBER: TESTER

WARNING: These products can expose you to chemicals including lead which is known in the state of California to cause cancer, birth defects or other reproductive harm. For more information visit www.P65WARNINGS.ca.gov

TERMS, CONDITIONS AND LIMITED WARRANTY OF SALE

All prices, terms and conditions of sale are subject to change without prior notice. Buyer agrees to all terms and conditions of seller upon the placement of any and all purchase orders.

GENERAL

- All orders are subject to a minimum charge of \$25.00.
- All claims must be made within seven (7) days of receipt of merchandise.
- The company reserves the right at all times to reject any and all orders for any reason.

PAYMENT TERMS

- Net 30 days (to approved and qualified accounts).
- We reserve the right to hold shipments against past due accounts.
- Seller may require full or partial payment in advance if, in its sole judgement, the financial condition of the buyer does not justify the terms specified.
- All past due accounts are subject to a late payment charge of 1.5% per month, or maximum allowed by law if different, along with the expenses incidental to collection including reasonable attorney's fees.
- Returned checks are subject to a minimum \$50.00 charge.

FREIGHT TERMS

- Collect
- Orders with different numbers and dates may not be combined to make freight allowance.
- Prepaid orders requiring immediate delivery that must be shipped from different Jason locations may be subject to a freight surcharge. Such determination will be made at the time of order.
- Backorders will be shipped in the most practical fashion with charges consistent with our freight policy established with the original order.

ACCEPTANCE, ALTERATION AND CANCELLATION OF ORDERS

Orders for other than standard items or standard lengths may not be cancelled after purchase has been committed, production scheduled or any costs incurred.

RETURN OF DEFECTIVE MERCHANDISE

Defective or failed material to be held at the buyer's premises until authorization has been granted by seller to return or dispose of merchandise. Merchandise to be returned for final inspection must be returned Freight Prepaid in the most economical way. Credit will be issued for material found to be defective upon our inspection based on prices at time of purchase.

MERCHANDISE SHIPPED IN ERROR

Buyer must notify seller immediately on any merchandise shipped in error. Upon notification, merchandise is to be returned to seller either via truck on a Freight Collect basis, via carrier of our choice, or via UPS on a Freight Prepaid basis. Buyer will be reimbursed for cost of merchandise, plus any additional freight which may have been incurred due to shipping error.

MERCHANDISE ORDERED IN ERROR

Standard packaged merchandise only may be returned, provided that the merchandise is in the original buyer's possession not more than 30 days. If merchandise is accepted for return, merchandise must be returned Freight Prepaid, and buyer will be charged a minimum of 15% rehandling charge, plus a chargeback for outbound freight charges if the original order was shipped prepaid. Returns are not accepted for any merchandise that is specifically manufactured to meet the buyer's requirement of either specifications or large quantity.

DELIVERY, DAMAGES, SHORTAGES

Delivery to the initial common carrier shall constitute the delivery to the buyer. Our responsibility, insofar as transportation risks are concerned, ceases upon the delivery of the merchandise in good condition to such a carrier, and all the merchandise shall be shipped at the buyer's risk.

GOODS DAMAGED IN SHIPMENT

Upon receipt of shipment, any evidence of damage to original shipping package must be reported by the receiving party and a claim made with the delivering carrier upon receipt of shipment.

CONCEALED DAMAGE

Any evidence of damage to material shipped, upon the opening of the original shipping package, must be reported by the receiving party to and a claim made with the delivering carrier without delay.

LIMITED WARRANTY

The merchandise or products sold or distributed by Megadyne Americas LLC are warranted to our customers to be free from defects in material and workmanship at the time of shipment by us. All warranty claims shall be made within 90 days after we have shipped the merchandise. Our liability hereunder is limited to the purchase price of any merchandise proved defective, or, at our option, to the replacement of such merchandise upon its authorized return to us.

THIS WARRANTY IS IN LIEU OF AND EXCLUDES ALL OTHER WARRANTIES, EXPRESSED, IMPLIED, STATUTORY, OR OTHERWISE CREATED UNDER APPLICABLE LAW INCLUDING, BUT NOT LIMITED TO, THE WARRANTY OF MERCHANT ABILITY AND THE WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT SHALL WE BE LIABLE FOR SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, INCLUDING LOSS OF PROFITS.

Copyright Notice: Megadyne America LLC copyright. All rights reserved. Megadyne is and shall remain the owner of all right on drawings, technical specifications and any other information contained in the present catalog or otherwise communicated by Megadyne America LLC to the customer. The customer shall not disclose such information to third parties or use such information for purposes different from the definition of the order to Megadyne America LLC, unless upon prior written authorization of Megadyne.
